**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2018**

1. STATUTORY INFORMATION

Cobre Properties Limited is a private company, limited by shares, registered in Not specified/Other. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Turnover

Turnover is the amount derived from ordinary activities, and stated after trade discounts and net of VAT, and comprises rental income. Rental income arising from operating leases is recognised on a straight-line basis over the lease term on ongoing leases.

Tangible fixed assets

Depreciation has been provided to write off the cost of tangible fixed assets over their expected useful lives using the following rates:

Plant and machinery	- 20% on cost
Computer equipment	- 25% on cost

Investment property

Investment properties are properties held by the company to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including transaction costs.

Subsequently investment properties are measured at fair value. Investment property valuations are based on an open market value.

Deferred tax is provided on these movements. Gains and losses arising from changes in the fair value of investment properties are included in the Statement of Income and Retained Earnings in the period in which they arise..

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2. ACCOUNTING POLICIES - continued

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Going concern

The use of the going concern basis of accounting is appropriate because there are no material uncertainties related to events or conditions that may cast significant doubt about the ability of the company to continue as a going concern.
