Gracechurch UTG No 150 Limited

Notes to the Financial Statements for the year ended 31 December 2018

1. General information

The Company is a private company limited by shares that was incorporated in England and Wales and whose registered office is 40 Gracechurch Street, London, EC3V 0BT. The Company participated in insurance business as an underwriting member of various syndicates at Lloyd's and all years of account on which the Company participated have closed.

2. Statement of compliance

These Financial Statements have been prepared in accordance with United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

3. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these Financial Statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

Basis of preparation

The Financial Statements have been prepared on a going concern basis, under the historical cost basis of accounting, as modified by the revaluation of certain financial instruments measured at fair value through profit or loss.

The preparation of Financial Statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the Financial Statements are disclosed in Note 4.

Going concern

The Company participated in insurance business as an underwriting member of various syndicates at Lloyd's and all years of account on which the Company participated have closed.

The Directors are of the opinion that the Company has access to adequate resources to meet its operational obligations, as these fall due, for the foreseeable future. Accordingly, the going concern concept has been adopted in the preparation of these Financial Statements.

Basis of accounting

The Company has ceased underwriting and all years of account on which the Company participated have closed. There are no syndicate transactions required to be reported in the general business technical account for the year ended 31 December 2018 and there are no assets or liabilities arising as a result of the underwriting activities that are required to be reported in the Balance Sheet at 31 December 2018.

The following accounting policies have been adopted:

Basis of currency translation

The presentation and functional currency of the Company is Pound Sterling, which is the currency of the primary economic environment in which it operates.

Income and expenditure in foreign currencies is translated to Pound Sterling at the average rate of exchange for the year.

Monetary assets and liabilities in foreign currencies are translated into Pound Sterling at the rates of exchange at the Balance Sheet date.

Any non-monetary items are translated in the functional currency, using the rate of exchange prevailing at the time of the transaction.

Differences arising on translation to the functional currency are reported within the Profit and Loss Account.

Investment return

Investment return comprises all investment income, realised investment gains and losses, movements in unrealised gains and losses, net of investment expenses and charges.

Realised and unrealised gains and losses are measured by reference to the original cost of the investment if purchased in the year, or if held at the beginning of the year by reference to the fair value at that date.

3. Summary of significant accounting policies (continued)

Taxation

Current tax is the amount of income tax payable in respect of the taxable profit for the year or prior years. Tax is calculated on the basis of tax rates and laws that have been enacted or substantially enacted by the period end. Current tax is recognised in the Profit and Loss Account.

Deferred taxation

Deferred tax is provided in full on timing differences which result in an obligation at the Balance Sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law.

Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered.

Deferred tax assets and liabilities have not been discounted.

Cash and cash equivalents and Statement of Cash Flows

Cash and cash equivalents include deposits held at call with banks, other short-term liquid investments with original maturities of three months or less and cash in hand.

Share capital

Ordinary share capital is classified as equity. The difference between fair value of the consideration received and the nominal value of the share capital being issued, is taken to the share premium account. Incremental costs directly attributable to the issue of new ordinary shares are shown in equity as a deduction, net of taxes, from the proceeds.

Dividend distributions to shareholders

Dividend distributions to the Company's shareholders are recognised in the Financial Statements in the period in which the dividends are approved by the shareholders. These amounts are recognised in the Statement of Changes in Shareholders' Equity.

Related party transactions

The Company discloses transactions with related parties which are not wholly owned within the same group. It does not disclose transactions with members of the same group that are wholly owned.

4. Key accounting judgements and estimation uncertainties

As the Company has ceased underwriting and all years of account on which the Company participated have closed, the Directors consider that there are no estimates and assumptions that have a significant effect on the Company's assets, liabilities and results.

5. Risk management

The Company has ceased underwriting and all years of account on which the Company participated have closed. The Directors do not consider the Company to face any significant financial or non-financial risks.
