**STRATEGIC REPORT
FOR THE YEAR ENDED 31 DECEMBER 2018**

INTRODUCTION

All financial statements prepared on or after the 31 December 2013 are required by The Companies Act 2006 (Strategic Report and Directors Report) Regulations 2013 to present a Strategic Report prepared by the board of directors. The Strategic Report covers the business review, principal risks and uncertainties, and financial key performance indicators.

BUSINESS REVIEW

The principal activity of the Company is that of a holding company for a managing agent at Lloyd's of London, named Managing Agency Partners Ltd ("MAP"). The syndicates under management by MAP are Syndicates 2791 and 6103. Syndicate 6103 is a special purpose arrangement hosted by Syndicate 2791.

The Company's turnover has decreased by 28.3% from £6,607,243 in 2017 to £4,737,450 in 2018. Profit for the financial year has decreased 28.2% from £6,594,451 to £4,732,344.

The Company's net assets have increased by 2.8% from £4,030,166 to £4,143,195.

**STRATEGIC REPORT (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2018**

PRINCIPAL RISKS AND UNCERTAINTIES

The principal risk for the Company is a loss in the value of its investment in MAP. The principal risk for MAP is that Syndicates 2791 and 6103 make losses preventing them from remitting profit commission to MAP. MAP mitigates this risk by planning to at least break even, even if no profit commission is received. The fortunes of the Company closely follow those of MAP, therefore the relevant risk disclosures below are in relation to MAP.

Credit risk

Financial instruments consist of cash and cash equivalent type investments. To minimise any credit risk, MAP has an investment policy of only placing cash deposits with large institutions that have a low credit risk.

Liquidity risk

MAP actively manages its cash resources to maximise interest income and minimise interest expense, whilst ensuring that MAP has sufficient liquid resources to meet the operating needs of its business.

Foreign currency risk

MAP's reporting and functional currency is Sterling. The principal foreign currency exposure arises from the receipt of profit commission in US Dollars from the syndicates. To minimise the exposure the profit pool liability is settled in the same currency in which it is received. The balance of undistributed US Dollars is monitored and, if appropriate, the exposure may be hedged to fix the monetary asset in Sterling. The hedging activity involves the use of foreign exchange forward rate contracts. The Company may receive a dividend in US Dollars from MAP. The dividend paid out to shareholders of the Company occurs immediately after receipt and in the same currency.

Operational risk

Operational risk is the risk of potential adverse financial and reputational issues arising due to inadequate or failed internal processes, people and systems or from external events. The internal risk assessment process has been developed to assess the potential impact, and probability, of certain events and a system of internal control has been implemented to mitigate the identified risks. These controls are monitored by MAP's Senior Management and the MAP Board and the effectiveness is validated through both the ongoing risk assessment and the internal audit process.

Regulatory risk

MAP is required to comply with the requirements of the Prudential Regulation Authority and Lloyd's of London. Regulatory risk is the risk of financial and reputational loss owing to a breach of regulatory requirements or failure to respond to regulatory change. MAP has a Director of Risk and Assurance who monitors regulatory developments and assesses their impact on agency policy and is supported by an assistant who carries out a compliance monitoring programme.

FINANCIAL KEY PERFORMANCE INDICATORS

The following financial Key Performance Indicators ('KPI') relate to MAP, which ultimately determines the performance of the Company.

Managing Agency Partners Ltd ('MAP') measures its performance using two principal Key Performance Indicators ('KPI') that together cover the vast proportion of turnover. The first KPI looks at the future underlying profitability of MAP's two managed syndicates. The profit commission received from the syndicates is directly correlated to the profitability of these syndicates.

The second KPI looks at the amount of underwriting capacity on Syndicate 2791. The Company receives a yearly managing agency fee that is set as a percentage (0.55%) of capacity. The managing agency fee is calculated to at least cover the MAP element of all expenses and therefore ensure the Company breaks even before profit commission.

Underlying profitability of Syndicates

Year of Account	Syndicate 2791 Forecast result % of capacity	Syndicate 6103 Forecast result % of capacity
2015 (closed)	11.8	30.8
2016	2.5 to 7.5	12.5 to 22.5
2017	-7.5 to 0	-10 to 0
2018	5.3	10.8

1 Open year, therefore result is only forecast as a range as at Q3 18

2 Business plan forecast at Q3 18 rates

For each of the underwriting years of account an expected range for the result is calculated and updated each quarter until the anticipated closure date 36 months from inception. After the underwriting year of account has closed a final result is known. 2016 is expected to close at a profit and it is likely that MAP will remit a dividend to the Company in 2019. The dividend received was all in respect of the 2015 YOA.

Both syndicates are forecasting losses in 2017; therefore it is highly probable MAP will not pay a dividend to the Company in 2020.

Underwriting capacity

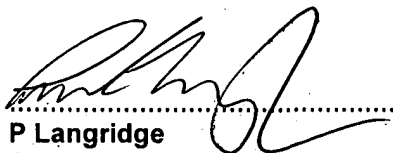

The underwriting capacity for 2018 YOA and the expected capacity for 2019 YOA is as follows:

	Year of Account	
	2018 (£m)	2019 (£m)
Syndicate 2791	399.5	400.6
Syndicate 6103	47.7	47.9

Capacity varies each year due to the forecast rating environment in which the syndicates operate and it can be equated to the appetite of the syndicates to underwrite insurance. MAP receives fees from Syndicate 2791 and profit commission from both syndicates. Syndicate 6103, as a special purpose arrangement, does not pay managing agency fees.

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. Responsibilities of Directors

As explained more fully in the directors' responsibilities statement set out on page 5, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

In accordance with FRS 102 section 1.12, the Company has not prepared a Statement of Cash Flow as its parent undertaking, MAP Equity Limited, produced publically available financial statements.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company accounting policies.

1.2 Legal status

Managing Agency Partners Holdings Limited is a private company limited by shares and registered in England and Wales. The registered office address, which is also the principal place of business, can be found on the Company Information page at the front of these financial statements.

1.3 Revenue

Turnover consists of dividends receivable from subsidiary companies.

1.4 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

1.5 Cash

1.6 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is GBP.

Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income except when deferred in other comprehensive income as qualifying cash flow hedges.
